

Full Time Permanent Interventional Cardiologist

Charles Clinic Heart Care is one of Australia's fastest growing cardiology practices. Situated in Launceston, Tasmania, we are a high-quality service currently employing four full-time and eleven visiting cardiologists. Currently we have 27,000 patients and provide over 30,000 services per year.

We are seeking a pleasant, caring and experienced interventional cardiologist who must be able to work well within our team and possess the judgement and skills to operate confidently without local cardiac surgical support.

Charles Clinic initiated the building of a private angiography Lab with Calvary St Vincent's hospital which opened in 2017. The fully equipped Philips lab is now approved for angioplasty services. We have increasing demand for angiography and angioplasty services with outstanding capacity for long term significant growth. Calvary is in the process of establishing a coronary care unit.

Our staff include seven cardiac sonographers, two exercise physiologists and a large administrative support team. We have an extensive, nationally recognised, regional outreach program throughout the north of the state and are currently building a diagnostic centre at Burnie in the North West.

Our modern rooms provide a professional, harmonious and supportive working environment utilising leading practice software integration and data management. We provide a full range of high-quality non-invasive and pacemaker services using state of the art equipment. We have established a cardiac rehabilitation and risk factor management service and close affiliations with major local and Victorian hospitals.

Applicants for this position must be eligible for registration with AHPRA (Medical Board of Australia) together with a cardiology accredited fellowship of the Royal Australian College of Physicians, or equivalent specialist overseas qualification. Remuneration will be based on skills and experience.

Tasmania offers a fabulous lifestyle for singles and families alike with spectacular wilderness, beaches, strong arts, food and wine culture and highly regarded private schools right on the doorstep. [Click here for a taste of what Tasmania has to offer!](#)
