2017 Valvular heart disease symposium

FOCUS ON TRANSCATHETER VALVE THERAPIES

20 AND 21 OCTOBER 2017 | AUSTRALIAN HEARING HUB
MORNING TEA, LUNCH AND AFTERNOON TEA PROVIDED
Learn from Professor Raj Makkar, a global pioneer of transcatheter aortic valve implantation

We are delighted to invite you to attend a state-of-the-art Valvular Heart Disease Symposium to be held in Sydney at Macquarie University on Friday 20 October and Saturday 21 October 2017.

In recent years, the treatment of aortic stenosis has been revolutionised by Transcatheter Aortic Valve Implantation (TAVI), a groundbreaking technology that has enabled the percutaneous replacement of the aortic valve. Furthermore, there has been rapid progress in the development of transcatheter therapies for mitral regurgitation including the MitraClip procedure as well as emerging therapies such as percutaneous mitral annuloplasty and transcatheter mitral valve replacement.

This symposium will be interdisciplinary, bringing together cardiologists and cardiothoracic surgeons together, in a heart team-based approach to comprehensively cover the latest developments and controversies in the clinical assessment and management of aortic stenosis and mitral regurgitation, with a particular focus on transcatheter therapies.

We will be joined by a leading international and national faculty including keynote speaker Professor Raj Makkar of Cedars Sinai Medical Center, a global pioneer of TAVI has been a lead investigator in many key TAVI trials including the seminal PARTNER randomized clinical trials.

The two days will include structured presentations and practical imaging sessions for participants.

Registrations are strictly limited and will be taken on a first-come-first-served basis.

We look forward to seeing you there.

Yours sincerely
Professor Martin Ng and Professor Michael Wilson

Accommodation

Special rates have been negotiated for symposium delegates at MGSM Executive Hotel. Delegates are able to book accommodation for the symposium whilst registering for the event by selecting this option. The rates for the hotel are at an additional cost which will be paid directly to the hotel at the time of check in. These rates are only available to delegates and bookings MUST be made via the online registration form.
