2021 ASM Prizes

Ralph Reader Prize - Basic Science Section

WINNER

Meredith Redd, University of Queensland

Genetic and pharmacological studies reveal acid sensing ion channel 1a as a novel therapeutic target against cardiac ischemia-reperfusion injury.

Ralph Reader Prize - Clinical Science Section

WINNER

Himawan Fernando, The Alfred Hospital, Baker Heart and Diabetes Institute, VIC

Lignocaine versus Opioids in Coronary Intervention: Assessing Antiplatelet Activity and Ticagrelor Levels (LOCAL) Study.

Allied Health, Science and Technology Prize

Winner: Ingrid Stacey, University of WA

Long-term outcomes after RHD diagnosis in Australia: a linked data study.

Cardiac Imaging Prize

Winner: Siddharth Trivedi, Westmead Hospital, NSW

Speckle tracking echocardiography predicts arrhythmia recurrence in patients with structural heart disease following ventricular tachycardia ablation.

Cardiovascular Genetic Diseases Prize

Winner: Stacey Peters, Royal Melbourne Hospital, VIC

Arrhythmias are a Requisite Feature of SCN5A Mediated Dilated Cardiomyopathy : A Systematic Review of Variants.

Cardiovascular Nursing Prize

Winner: Lynda Tivendale, Royal Melbourne Hospital, VIC

Multimodal lung and sternal ultrasound education program for cardiothoracic nurses and physiotherapists.

Prevention Prize

Winner: Kasun De Silva, Westmead Hospital, NSW

Sex-based differences in implantation of pacemakers, implantable cardioverter defibrillators and cardiac resynchronisation therapy: a 10-year study of 1,291,258 patients in New South Wales.

Heart Failure Prize

Winner: Praveen Indraratna, Prince of Wales Hospital, NSW

TeleClinical Care: A randomised control trial of a smartphone-based model of care for patients with heart failure or acute coronary syndrome.

Heart Rhythm Prize

Winner: Varun Malik, Centre for Heart Rhythm Disorders University of Adelaide

AF begets autonomic nervous system dysfunction: a possible contributor to “AF begets AF”

Indigenous Health Prize

Winner: Katharine McBride, SAHMRI, SA

When the heart is spiritually and physically strong, women have lower incident cardiovascular disease: Quantifying Aboriginal women’s narrative of cardiovascular protection.

Paediatric and Congenital Cardiology Prize

Winner: Karina Laohachai, Women’s and Children’s Hospital, SA

Older age of Fontan completion is associated with impaired lung function.
