---

Welcome to the final deep dive into the cardiac specialty stream sessions of the 2022 CSANZ ASM Program. Today we are focusing on the Cardiac Imaging Stream.

## THURSDAY 11 AUGUST 2022

**CSANZ Imaging Symposium:** Join us for a huge day with a wide variety of topics including interventional imaging, the role of nuclear cardiology in today's practice and updates in MRI, to the future: Cardiac Imaging – the next 10 years. Plus, there is a dedicated concurrent session in the morning for sonographers.

In the afternoon we look forward to getting back to face to face and voting for the **Case of the Year**, followed by the Imaging Council AGM.

Each morning from 7.30am the **breakfast sessions** are on for all streams.

Cardiac Imaging specialists can enjoy: *Australian and International HFrEF Guidelines* on Friday and then Saturday's session is *Cutting edge cardiac imaging* with international imaging speakers: **Prof Stephen Achenbach** (Germany), **Prof Marianna Fontana**(UK) and **Prof Jeroen Bax** (The Netherlands).

## FRIDAY 12 AUGUST 2022

The **Cardiac Imaging Prize Session** begins at 11am with **Prof Jeroen Bax** (The Netherlands) presenting: *Cardiac imaging research in the era of big data, artificial intelligence*. Good luck to the four Imaging Prize Finalists:

- **Dr Aisha Ferkh**, University of Sydney
- **Dr Amro Sehly**, Fiona Stanley Hospital
- **Dr Callan Gavaghan**, Princess Alexandra Hospital
- **Dr Jonathan Sen**, Baker Heart and Diabetes Institute / Princess Alexandra Hospital.

Friday afternoon, the focus is on **Amyloidosis - workup and management** with international speaker, **Prof Marianna Fontana** (UK) presenting *MRI imaging in amyloidosis*. Click [here](#) for more about other topics and speakers for this session.

Finally on Friday an exciting **ESC-CSANZ joint session: The untapped potential of imaging data.**

- **Prof Stephen Achenbach**(Germany) - *Coronary CTA – lessons on prevention*
- **Prof Jeroen Bax** (The Netherlands) - *Imaging and management of secondary mitral regurgitation.*
- **A/Prof Katrina Poppe** (NZ)- *The untapped potential of imaging data*
- **Dr Sean Coffey** (NZ) - *Time to re-examine population based screening with echocardiography.*

### **SATURDAY 13 AUGUST 2022**

Get ready for another full day of Cardiac Imaging! Start with the joint **Imaging/Genetics session, Hypertrophic cardiomyopathy** session and learn from leaders in their field including:

- **Dr Milind Desai**(USA) *HCM multimodality imaging.*
- **Prof Chris Semsarian** (NSW) *Genetics of HCM* followed by
- **Dr Andrew Martin** (NZ) *HCM risk assessment 2022*
- **A/Prof Andre La Gerche** (VIC) *HCM and sports.*
- **Miss Ada Lo** (QLD) *Use of advanced echocardiographic modalities to discriminate preclinical HCM mutation carriers from non-carriers.*

After lunch, there are international and local experts on **Valvular heart disease - novel imaging strategies.** Read more about their presentation topics [here](#).

Followed by **Imaging cardiomyopathies** from 3.30pm [Read more about speakers and their topics here](#)

### **SUNDAY 14 AUGUST 2022**

In the morning the **2022 Cardiac Imaging** stream will conclude with a session on **Cardiac imaging - access and equity** where we will hear from experts from Australia and New Zealand discussing variations in, and access to Imaging for each region.
